

## **LEAGUE REGISTRATION REFUND POLICY**

It is understood that all registrations and sales are final. If there are unforeseen circumstances, a refund may be requested and submitted for review. An administrative processing fee of \$50 will be deducted from the amount refunded.

Refunds requested for league registration cancellations made during the regular registration period, will be subject to a \$75 cancellation fee.

Refunds requested for league registration cancellations made after the registration period has closed, but before the league schedule has been completed, will be subject to a \$100 cancellation fee.

Refunds requested for league registration made after the league schedule has been completed, will not be accepted and the team will receive no refund.

Refunds, (less cancellation fee), will be credited back to the account that the original registration was submitted through. The credit will remain on that account and can be used for registration fees for future LYSA events.

If a cash refund is requested and the date of request is within 3 months of the original registration date, the refund, (less cancellation fee), will be credited back to the credit card that the original registration was paid with. If the refund is requested after 3 months, a check will be mailed to the address listed on the account associated with the league registration.
